WHAT IS LOAD SHEDDING & ADDING SYSTEM

Every Plant with self power generation has some limitations in terms of load demand and the capacity.

Automatic Load Shedding and Adding is the solution for optimum self generation with minimum disturbance in the system.

Our Load Shedding and Adding System is fully Automated and it has 20 channels in 1 controller to manage the essential and less essential loads automatically.

LOAD SHEDDING & ADDING SYSTEM

AUTOMATIC POWER DISTRIBUTION SYSTEM

WITH AUTOMATIC LOAD SHEDDING & ADDING SYSTEM FOR OPTIMUM IPP PERFORMANCE
48 Stages Auto Load Shedding / Adding & 48 Stages of P.F.I System
FULLY AUTOMATIC WITH MANUAL OVER RIDING SYSTEM

PROJECT: SAPPHIRE TEXTILE MILLS NO.1 SITE KOTRI - SINDH

**MOTORIZED BREAKERS
FOR EACH FEEDER**
